

Benefits of Rocket stove use

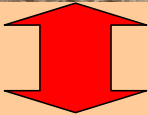

Intelligent Energy Europe

Inefficient Open fire stove

Open fire produces hazardous smoke and is inefficient

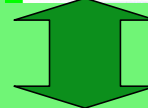

A lot of wood is needed for cooking

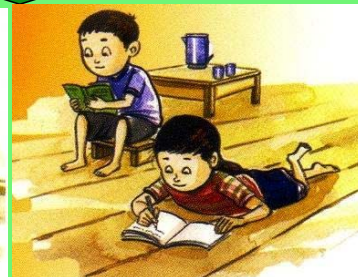

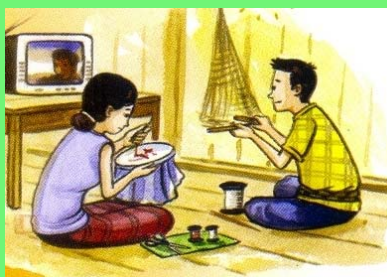

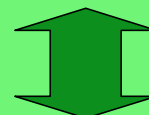

Collecting wood is hard work and consumes a lot of time of children and women. Deforestation continues

Efficient Rocket stove

The Rocket stove produces less smoke more efficient

The Rocket stove uses less wood for cooking

Collecting less firewood lightens the works of women and children
More time for income generating activities, learning, leisure, etc.
Less deforestation
